

2 CR123

TURBO LONG GUN WEAPON LIGHT KIT

LGL-160-T

**HIGH INTENSITY
600M BEAM**

800 LUMENS

Reversible Picatinny mount (standard and offset included) provides flexible mounting solutions to avoid interference with other accessories.

Precision-engineered reflector creates a tight, bright beam with defined center spotlight and soft secondary halo.

Light includes 6" LGL-RPS2 and NS-PIC2 rail mount for remote mounting options. Switch activates momentary and constant-on modes.

Kit includes NS-WM1 wire management clamp to keep RPS cable secured and avoid snags. Molded cable channels provide multiple entry/exit paths.
